WORK & OTHER EXPERIENCES

The University of Georgia, Administrative Assistant | Athens, GA

August 2023 - Current

- Worked as a work-study student where I focused on general office-related tasks (scanning, filing, copying, data entry)
- Inputting confidential data into the database
- Intaking and delivering departmental mail and packages

Kung Fu Tea, Cashier | Duluth, GA

February 2023 - August 2023

- Worked in an environment with 3+ people every shift in a team of 20 to create a welcoming environment for both customers and coworkers
- Developed customer service skills to make sure every customer feels welcomed
- Multitasked between taking orders, cleaning, and organizing drinks for pick up and in-store

PROJECTS

Grocery Store Database

Project Leader

- Developed a full relational database system from a business case, including designing a 12-entity data model, forward-engineering it into a MySQL schema, populating tables with sample data, and writing 10+ SQL queries (ranging from basic to complex) to demonstrate data retrieval and analysis capabilities.

Titanic Tableau

Project Leader

- Analyzed the Titanic passenger dataset to investigate survival factors across gender and class
- Conducted data cleaning and feature engineering, handling missing values and creating calculated fields for survival rates
- Performed exploratory data analysis using statistical aggregations and Tableau visualizations

CAMPUS & COMMUNITY INVOLVEMENT

UGA SMIS

August 2025 - Current

- Attended regularly scheduled company presentations to interact with industry representatives and explore career opportunities
- Networked with professionals to gain insights into career paths for MIS majors
- Participated in special events, including networking sessions and case study preparation workshops

UGA Women in Technology

August 2025 - Current

- Engaged in opportunities to develop leadership, technical, and professional skills for career growth
- Contributed to initiatives focused on improving the educational, social, and cultural landscape for women in technology
- Supported efforts to address the underrepresentation of women in the technology industry
