EDUCATION

University of Georgia Athens, GA

B.B.A in Management Information Systems, Data Analytics Emphasis, New Media Certificate

GPA: 3.82

Certificates: Go Lean Six Sigma Yellow Belt Certification, Google IT Support Professional Certificate

WORK EXPERIENCES

The University of Georgia, Administrative Assistant | Athens, GA August 2023 - May 2026

- Provided customer service by assisting faculty, staff, students, and visitors
- Performed administrative tasks including scanning, filing, copying, data entry, and maintaining confidential records
- Responded to inquiries and directed visitors to appropriate resources
- Sorted, distributed, and delivered departmental mail and packages
- Maintained databases, monitored office supplies, and supported daily office operations

PROJECTS

Grocery Store Database, *Project Leader* Fall 2024

- Developed a full relational database system from a business case, including designing a 12-entity data model, forward-engineering it into a MySQL schema, populating tables with sample data, and writing 10+ SQL queries (ranging from basic to complex) to demonstrate data retrieval and analysis capabilities

Titanic Tableau, *Project Leader* Spring 2025

- Analyzed the Titanic passenger dataset to investigate survival factors across gender and class
- Conducted data cleaning and feature engineering, handling missing values and creating calculated fields for survival rates
- Performed exploratory data analysis using statistical aggregations and Tableau visualizations

Memory Card Game Web Development Project, *Sole Developer/Designer* Fall 2025

- Developed a responsive interactive website using HTML, CSS, and JavaScript, focusing on usability, visual design, and responsive layouts
- Implemented interactive features and dynamic content to create an engaging user experience across desktop and mobile devices
- Applied principles of user experience, visual hierarchy, accessibility, and responsive web design throughout the development process

City Guide UX/Prototype Project, *Team Member* Spring 2026

- Designed a high-fidelity, interactive 10+ screen mobile app prototype in Figma for discovering restaurants, events, attractions, and activities in Athens, GA
- Applied user-centered design, accessibility, information architecture, and reusable components to create an intuitive mobile experience
- Conducted usability testing with 4 users across 8 tasks, analyzing task success, time-on-task, and qualitative feedback to identify usability issues
- Synthesized research findings into design recommendations that improved navigation and overall user experience

Street Grace Nonprofit Website, *Web Developer* Fall 2026

- Designed an interactive “How Can I Make a Difference?” experience for Street Grace, featuring animated, branching story paths that demonstrate how individual contributions create measurable impact and support vulnerable individuals and survivors
- Developed user-centered interactions that allow visitors to explore different actions and discover their unique outcomes
- Designed a medium and high-fidelity website prototype in Figma for the Alpha and Beta
- Made a UX map that was a hybrid of a user story and a wireframe
